## ESSENTIAL FULL DAY LECTURE COURSE

# FREE EVENT

Friday 3<sup>rd</sup> March 2023

**This will be different to previous MIRS Courses which have previously focused on practical hands-on and simulation stations, but this course will be mainly lecture focused, delivering high-quality talks from a variety of experts, on a variety of topics and a perfect opportunity to network and meet like-minded individuals, trainers, and trainees in a friendly, non-pressured environment.**
